Dear Lila,

Thanks for the clipping which I've not yet had time to read, I've been that busy.

The reverse side of this, which I am not keeping, indicates the wonders available to student not even dreamed of in my youth. A student fan got me a very big batch I have gone over and filed but not the lengthier articles he sent.

The reporter phoned me some time ago. He promised to send me a copy of his story, as they all do, and didn't, as almost all don't.

We had a pleasant Xmas card from Kim.

She says she is teach 2 11th grade and likes it and is happy.

As we hope you are, too,

Harold
